STREETFOOD AROUND THE WORLD

INVITE YOUR GUESTS TO TASTE SOMETHING FROM EVERY CONTINENT

They have been travelling around the world for years to taste authentic snacks made by locals in every country. After all, every continent has its individual food culture and preparation methods.

What could be more fun than being taught by the locals how to cook these tasty delicacies?

Duca's Chef was already visiting Thailand and China long before the rest of us here in Europe had been introduced to the colorful, vegetable-rich cuisine of Asia. He discovered that classics like mini spring rolls and Asian finger food were also very popular over here. That is why he started a collaboration with local partners.
